

INTERIOR DOORS COLLECTION

Our European hardware collection features a wide range of styles and finishes, ensuring the perfect finishing touch for every interior door. Each set is crafted to the highest standards, providing everything you need to ensure your doors operate smoothly and close securely.

/ OUR PHILOSOPHY

European Doors success is built on a foundation of diverse factors, with our dedicated, highly skilled professional team at the core. Our specialists combine expertise and passion to strive for perfection, while our cutting-edge manufacturing equipment ensures that every product meets rigorous quality standards.

We prioritize an efficient production system to deliver superior quality, offering an extensive selection of finishes for door slabs. This commitment drives our mission: to create doors of European quality that seamlessly blend sophisticated design with environmental responsibility and lasting functionality

AVON

AVON COLLECTION

The Avon interior door collection masterfully blends classical elegance with refined high-tech style.

Clean straight lines, eco-friendly materials, and advanced modern technologies come together to meet the highest industry standards.

This collection offers an impressive range of customization options, including the number of panels, glazing, and decorative elements.

Constructed using stiles and rails, Avon doors deliver exceptional quality, timeless beauty, and proven durability. Each door is made from carefully selected linear pieces of lumber, assembled into a single solid structure for maximum strength and long-lasting performance.

The premium polypropylene (PP) finish gives the doors a stylish, natural wood appearance while being environmentally friendly. It is highly resistant to moisture and temperature fluctuations, ensuring reliability for years to come.

OPTIMA

OPTIMA COLLECTION

Modern design, high standards of craftsmanship, and a color palette selected in line with the newest trends are the advantageous characteristics of the new Optima collection.

Whether you are a builder or a house owner, a well-balanced combination of price and quality is worthy your attention.

The doors consist of a pine frame, an eco-friendly solid core material, and a high-density wood fiber mixed in with polyurethane resin and wax to secure high sound and thermal insulation. Such filling provides additional durability, noise reduction, and thermal insulation.

CITY COLLECTION

Feel the city's pulse and find yourself in the center of urban events without leaving your cozy room. Enjoy our modern City collection's aesthetic forms, smooth surfaces, and monochrome palettes.

It embodies a combination of the best trends in the door industry: extreme simplicity and quality materials. The aluminum moldings on the slabs emphasize the strictness and luxury of the interior doors.

A quality pine frame and a solid core inside form the basis of strong and durable construction.

The doors are professionally coated with an eco-friendly polypropylene finish, a material resistant to moisture and temperature fluctuations.

Veralinga Oak

LOUVER COLLECTION

To create the perfect door for wardrobes, pantries, and other rooms, we used only quality materials and a unique panel design that allows air circulation.

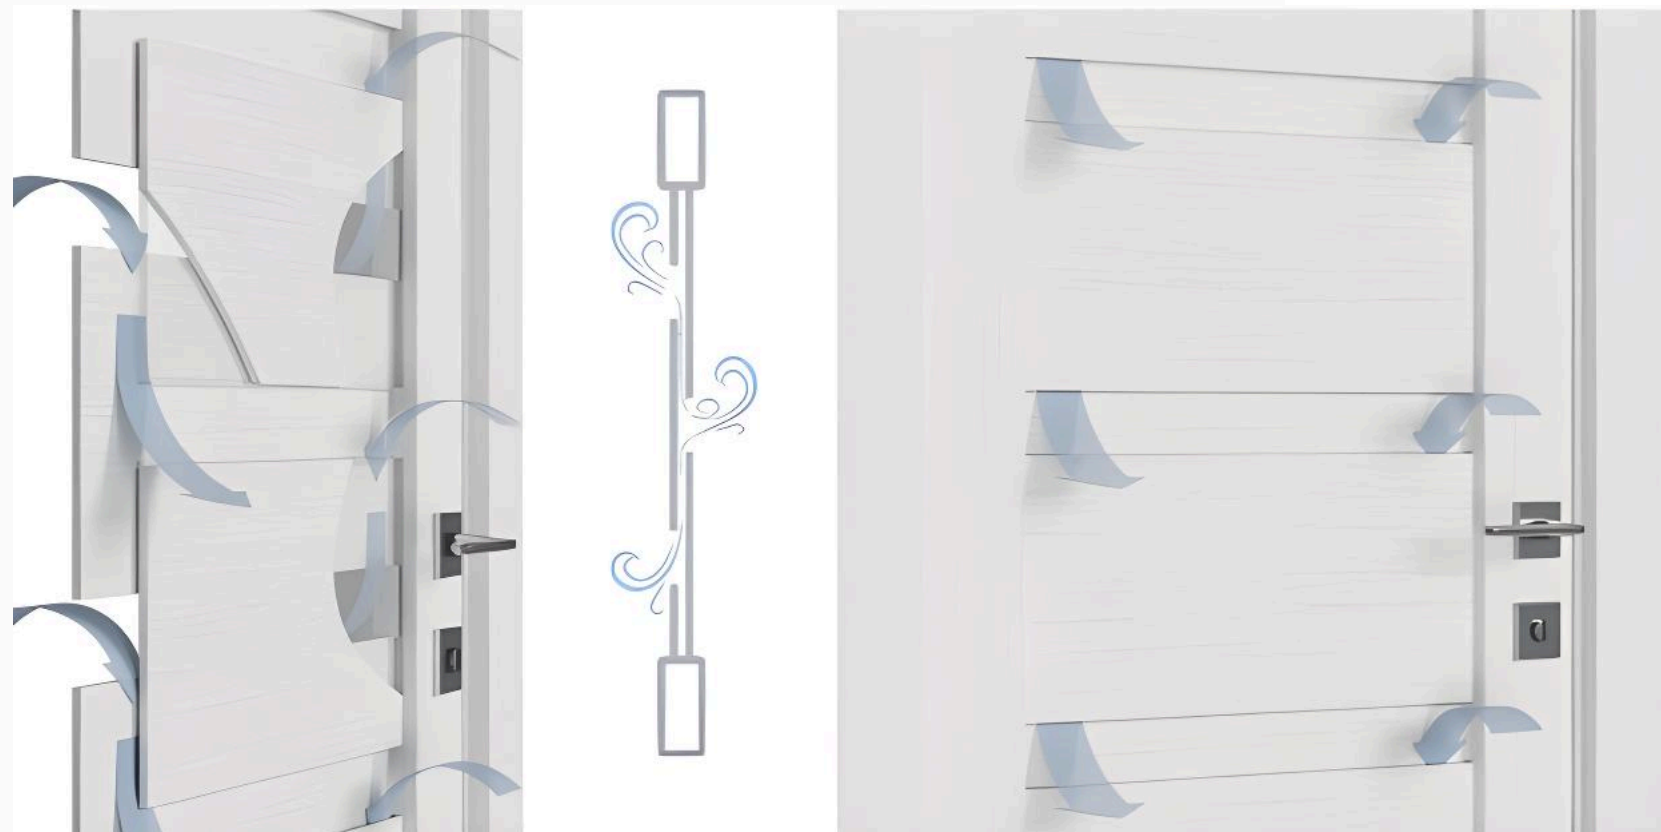

Despite the small cavities that protect the room from mustiness, the slab has good sound and heat insulation thanks to the MDF filler.

SHAKER

SHAKER COLLECTION

Thanks to their traditional style and impeccable quality, doors from the Shaker collection become a striking accent element in any room of your home. The minimalist design can be further enhanced with elegant hardware.

Stile and rail doors embody the finest traditions of American craftsmanship. We use linear lumber pieces assembled into a single structure to ensure the slab's functionality and durability.

MDF panels provide reliable soundproofing and help retain heat inside the room. In addition, the door offers excellent sound insulation—especially when paired with the automatic threshold.

NARVIKA

NARVIKA COLLECTION

The Narvika collection embodies the simplicity and functionality of Scandinavian style, which emerged in the early 20th century across the five Nordic countries—Denmark, Finland, Iceland, Norway, and Sweden. These influences are reflected in the clean, uncluttered lines of the collection.

A key feature of these doors is the high-quality Polar White matte finish, achieved through a combination of polyurethane primers and lacquers. By applying multiple layers of lacquer with intermediate priming and sanding, we create a perfectly smooth surface.

In addition, the advanced lacquer finish offers excellent protection against damage and moisture.

Features

Matching jambs and casings

Premium lacquered finish

Rubber seal

EXOTIC WOOD VENEER COLLECTION

EXTERIOR DOOR

EXTERIOR DOOR COLLECTION

The Exterior Door Collection features energy-efficient, weather-resistant models with a contemporary design. Each door is accented with translucent frosted glass inserts, which form a triple-sealed, two-chamber unit. The glass is tempered on both sides and features silk-screen printing using ceramic inks.

The Aura, Zephyr, and Argos models are equipped with galvanized steel door frames that include two thermal breaks. This provides the door with superior thermal insulation, helping to keep your home warm even in extremely low temperatures.

Crafted from high-quality materials, these durable exterior doors are a long-term investment in your property. They offer security (with 37 dB of sound insulation) and protection against harsh weather conditions, dust, moisture, and noise.

INVISIBLE FRAME

INVISIBLE FRAME

Create striking lines in your design and bring clean, minimalist concepts to life with the European Doors concealed door frame system. Give your doors a sleek, modern look with a frameless design that sits flush with the wall.

The pre-finished door is crafted from a solid slab and is suitable for a wide range of construction projects. The environmentally friendly polypropylene (PP) finish offers a smooth surface while protecting the slab from scratches, moisture, and temperature changes. A hollow metal frame provides the strength and durability required for commercial use.

PRIMED COLLECTION

Flush-mounted primed doors are an excellent choice for stylish interiors. With their sleek, aesthetic design and absence of protruding elements, they help visually expand the space in any house or apartment. Primed doors blend harmoniously into any room or can serve as an accent feature within your living space.

You can paint the primed door in any shade, apply wallpaper to it, or decorate it with plaster to match your unique style.
